Esforsu ida ne'e kontinua hala'o nafatin tambo UIF rekoñese valor hosi asaun formasaun sira nu'udar meiu importante ida hodi bele kontribui ba luta kontra BK/FT iha Timor-Leste.

It is my pleasure to release the second Annual Report of Unidade de Informação Financeira (UIF or Financial Intelligence Unit) of Timor-Leste for the year ended 31 December 2016. The Decree Law no.16/2014 of 18 June, article 9, requires UIF to prepare an annual report containing activities performed during the year and to submit to Governor of Banco Central de Timor-Leste. The Law further requires UIF to publish the annual report as well as to transmit copies to National Authorities with competences on Anti Money Laundering and Combating Financing of Terrorism (AML/CFT).

The report highlights activities carried out during the year and contains plans for the forthcoming year. UIF has made progress since its establishment in September 2014 and proved itself as an entity that is contributing to the national effort to combat money laundering (ML) and terrorist financing (TF).

During 2016, along with other key challenges, UIF successfully disseminated suspicious transactions to Public Ministry/Public Prosecutor's Office also responded to a significant volume of cases with the Public Prosecutor's Office and other Law Enforcement Authorities including regular sharing of information; developed Standard Operating Procedures for all core functions; new staff recruited and assumed functions and responsibilities since July of the same year; provided capacity building training to UIF staff; provided training workshops to reporting entities to address weaknesses in the AML/CFT system; as well as organised joint training workshops that involved UIF staff, the bank's Compliance Officers and law enforcement authorities. These efforts are made as given that UIF always valued training as an essential tool to fight against money laundering and terrorist financing (ML/TF) crimes in Timor-Leste.

Passu signifikante ida mak UIFnu'udar koordenador ba implementasaun programa nasional prinsipal rua hosi mandatu Komissaun Nasional ba ABK/KFT ou CNCBC nian, UIF konklui ona Avaliasaun Nasional ba Risku BK/FT no Planu Estratejiku Nasional ba ABK/KFT ba períodu 2016 – 2020. Parte kritíku liu mak oin-sá tau iha práтика planu hirak ne'e hodi responde ba risku no vulnerabilidade hirak ne'ebe identifika ona durante prosessu avaliaasaun. Nune'e mós implementasaun asaun sira bazeada iha risku sei assegura sistema ABK/KFT efetivu liu tan hodi alkansa rezultadu ne'ebe espera fó benefísiu ba nasau Timor-Leste. Nune'e, hahú 2016, UIF implementa dadauk ona planu asaun sira ne'ebe kabe ba responsabilidade UIF nian no sei kontinua iha tinan tuir mai.

Rezultadu hosi knar hotu ne'ebe dezempenha iha tinan 2016 la possível atu alkansa karik laiha apoiu hosi Banco Central Timor-Leste (BCTL), liu-liu hosi Senhor Governador/Presidenti Konselhu Administrasaun, membrus Konselhu Jestaun, no funzionáriu tékniku hosi área relevante sira.

Hanesan membru efetivu ida hosi CNCBC, UIF sei serbissu hamutuk nafatin ho BCTL; Ministéru Pùbliku/Prokuradoria Geral Repùblika no autoridade investigador sira seluk hodi kontribui ba esforssu nasional atu salva-guarda sistema finanseiru no ekonomia Timor-Leste em jeral.

Molok remata, ha'u hodi UIF nia naran hakarak hato'o agradesimentu sasukat laiha ba Excelentíssimos Senhores membrus CNCBC, Responsável Compliance sira ba kolaborasaun no koperasaun diak; no mós ba Parseirus Internasional sira ne'ebe kontribui ba dezenvolvimentu institusional UIF nian.

Ikus liu, ba progressu hirak ne'e hotu, ha'u hato'o mós agradesimentu sasukat laiha, ba funzionáriu UIF sira nia serbissu maka'as, dedikasaun no komitmentu bot hodi bele atinji objetivu UIF nian.

This is also a significant step to know that, UIF which has been entrusted the role of coordinator, has concluded the implementation of two main programs under the National Commission on AML/CFT or the CNCBC's mandate such as (i) National Risk Assessment on ML/TF; (ii) National Strategic Plan for the period 2016 – 2020; and where have been formally endorsed by the VI Constitutional Government of RDTL on 14 June 2016. UIF recognises that completing the national risk assessment and developing comprehensive action plan is not sufficient by itself. The most critical part is putting the plans into effect in a manner that mitigates the risks and vulnerabilities identified in the assessment. Moreover, the implementation of risk based actions will ensure that the AML/CFT system is effective and is being applied to achieve results that benefit Timor-Leste. Therefore, UIF has gradually implemented the defined action plans under UIF responsibility and will continue in the forthcoming year.

All the achievements in 2016 would not be possible without the support from Banco Central de Timor-Leste, in particular the Governor/President of the Board, the Management and technical staff from relevant areas.

As an effective member of the CNCBC, UIF looks forward to working closely with the BCTL, Public Prosecutor Office and relevant Investigators to better contribute to a safer Timor-Leste's financial system and economy.

To close, I would like on behalf of the UIF to express my sincere appreciation to Excellences members of the CNCBC; the Bank's Compliance Officers for the usual collaboration and cooperation; and International Partners who have been actively contributed to UIF's institutional development.

Finally, for the progress made this year, I particularly thank all UIF staff for their diligent, hard work and commitment to the UIF's goals.

The Unidade de Informação Financeira of Timor-Leste was created as an administrative Financial Intelligence Unit (FIU) within the Banco Central of Timor-Leste in accordance with the Law no. 17/2011 of 28 December, amended by Law no. 5/2013/III of 14 August for Legal Regime to Prevent and Combat Money Laundering and Financing of Terrorism (AML/CFT Law). The organisation, governance and the powers of UIF are defined in the Decree Law no. 16/2014 of 18 June. The UIF which is a national central agency in the AML/CFT regime is independent in its operations for the purpose of enforcing its powers, the core duties and functions, including full autonomy in decisions to receive, analyse information related to money laundering (ML) and terrorist financing (TF) and to disseminate to competent authority. Under Section II article 9 of the same Decree Law, UIF is required to produce annual report covers all operational activities performed during the year and to submit to Governor of Banco Central Timor-Leste (BCTL) for information and consideration.

This is the second annual report released by UIF Timor-Leste that describes the works performed in 2016 from various fields of its competences. Following the first annual report which elaborated more in general events, the 2016 report elaborates more on achievements that has been done in the year including particular progress that UIF has made in implementing the national strategic plans (NSP 2016 - 2020). It is very important that the presentation in this report should be much more informative for the readers to know and understand better UIF's main roles and functions in order to promote UIF which just two years in operation.

Since independence in 2002, financial system of Timor-Leste has changed subsequently follow by more demands and needs from Timorese people and globalization. In line with that, Government of Timor-Leste committed to develop financial system with believed, Timor-Leste financial systems must be transparent, inclusive, and function with integrity to ensure economic development and promote good governance. In accordance with that Government of Timor-Leste and National Parliament approved Law no. 17/2011 AML/CFT. Following changes of international regulations, the government remained committed to amended AML/CFT Law no. 05/2013/III of 14 August, concerning the first amendment to AML/CFT Law and the third amendment to Penal Code specifically article 133 concerning financing of terrorism and article 313 on money laundering as well as lowering the threshold for a predicate crime to be considered money laundering from four years to two years imprisonment. The amendment was subsequently made to address deficiencies identified during the mutual evaluation 2012.

As a cooperation and coordination mechanism at the national level, the Council of Ministers of the VI Constitutional Government of RDTL, through its Resolution no.10/2014 of April 9th, constituted a National Commission for the implementation of AML/CFT measures named in Portuguese as "CNCBC" (Comissão Nacional para a Implementação de Medidas Destinadas ao Combate ao Branqueamento de Capitais e ao Financiamento do Terrorismo). The CNCBC which is co-chaired by the Minister of Foreign Affairs and Cooperation, and Minister of Justice is mandated to oversee a series of AML/CFT programs as well as to ensure overall compliance with international standards. This Resolution has been further amended through resolution no. 18/2016 of 29 June to incorporate UIF and other state institutions with similar competences also adjusted the position titles with the recent restructuration of government institutions.

Analysis reports on typologies and transaction types will be prepared for internal reference, and these reports may also serve as insights for supervisory authorities' policy review.

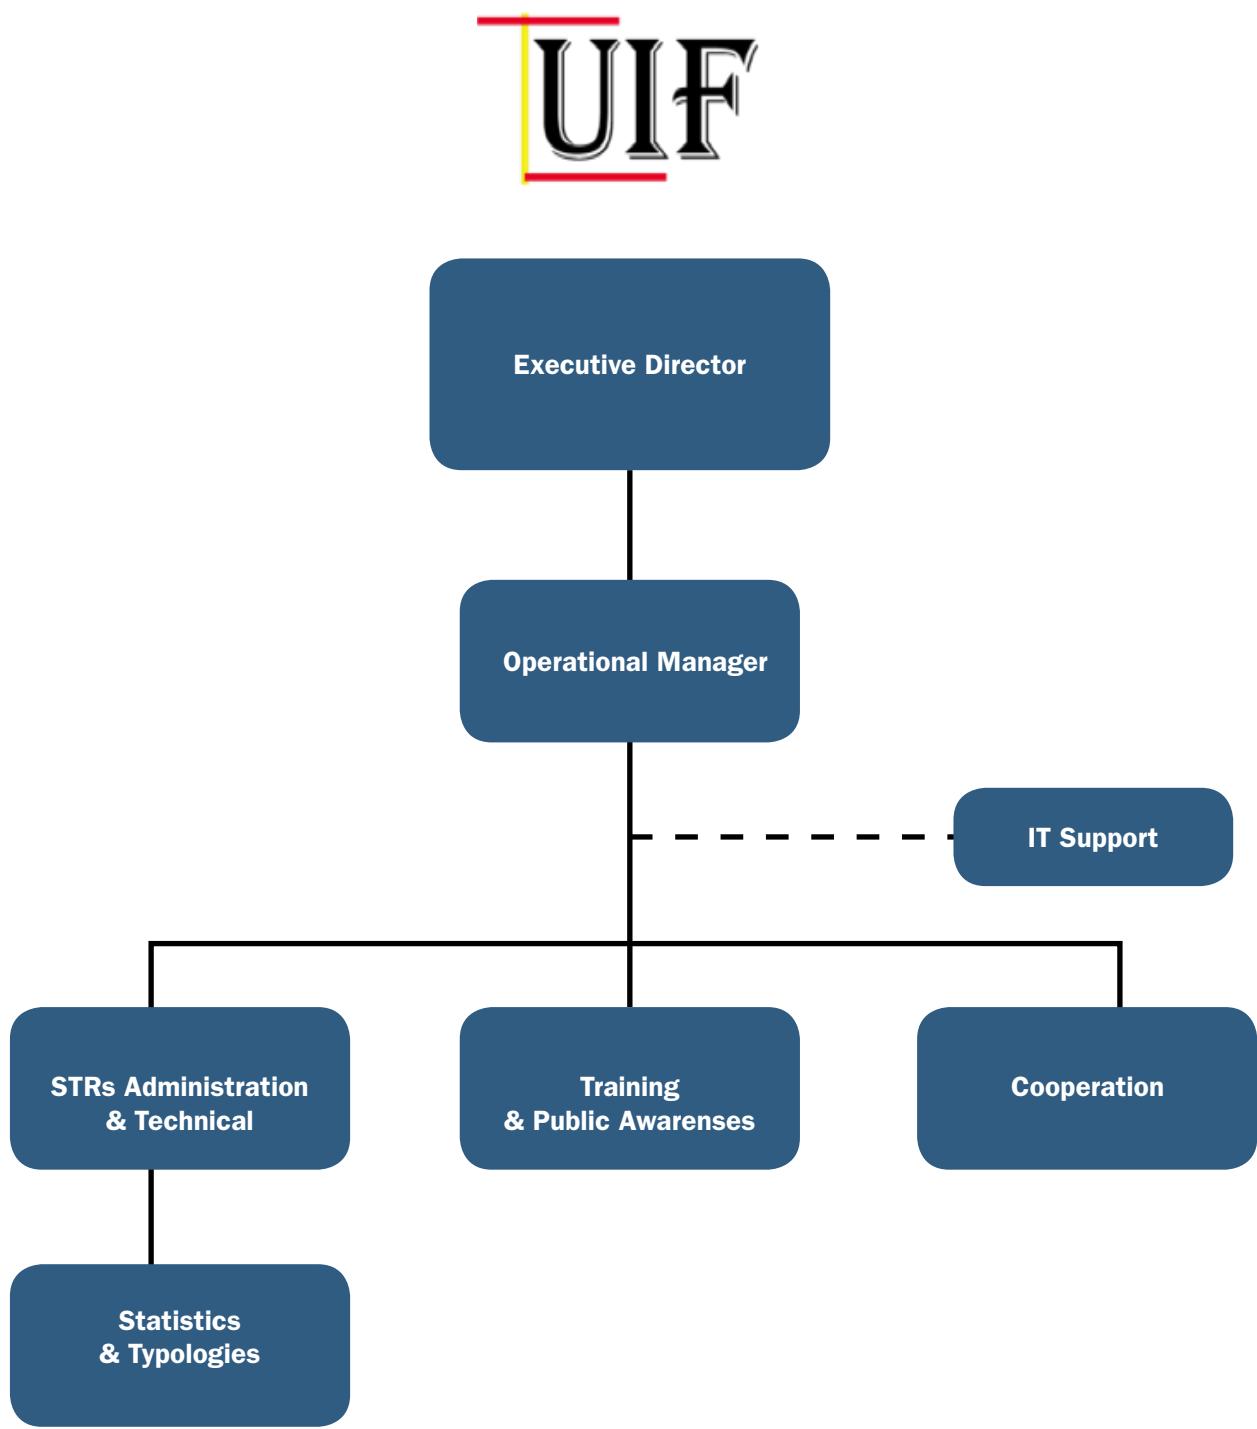

#### • Training and Public Awareness

Under the same Decree Law, article 2, UIF is also required to coordinate with other competent authorities to promote AML/CFT awareness raising programs. This program has been an important strategic action plan of UIF since its establishment. For this reason, the training and public awareness area is set up with responsibility to arrange relevant training and workshop programs including preparing promotional campaigns by means of brochures, newspaper articles and advertisements in mass media which are necessary to raise public awareness concerning the importance of AML/CFT.

#### • Cooperation

Article 11 of the same Decree Law, requires UIF to enter into agreement with International FIUs as well as to collaborate with domestic judiciary authorities and other entities vested with AML/CFT competences. Cooperation with other institutions has significant importance to this agency in implementing its legal mandate. Therefore, it is necessary to maintain this specific area for cooperation with responsibility to deal with agreements for cooperation and information exchange between institutions both at domestic and international level also to secure its implementation process.

The primary source of information which is a fundamental basis for UIF to execute its legal mandate is financial information; administrative; and law enforcement information, which consisted the following:

#### **Suspicious Transaction Reports (STRs)**

Under article 23 of AML/CFT Law, all reporting entities as defined in the article 3 of the same Law, are obliged to immediately file a report to the UIF if having reasonable grounds to suspect that a financial transaction involves money laundering, terrorist financing or any proceeds from unlawful activity. Dealers in precious stones and metals have similar obligation to report any suspicious transaction amounting US\$ 10,000.00 or more. The STR information is stored in the UIF database and shall proceed with operational analysis and whenever the result of analysis as indication of criminal activity, it shall report to the Public Prosecution Office, so that the proper proceedings may be lodged.

#### **Cash Transaction Reports (CTRs)**

Money Transfer Operators have similar obligation to report both STRs and CTRs to UIF. The minimum limit for CTR is US\$2,500.00 or more for each transaction that a client is moving. The CTR information is stored into UIF data base and is used to support STR analysis.

#### **Declaration of Cash Transportation and BNI**

Declaration on cash transportation and bearer negotiable instrument (BNI) is classified as law enforcement information originating from Custom Authority which is mandatory under article 7 of the AML/CFT Law. The Law requires any person entering or leaving territory of Timor-

### Access to information

Collecting various information from different source is an essential element in the whole process as it is crucial to add value to an STR analysis and to propose reported cases deemed suspicious to the PPO. Therefore, UIF has been granted access to information power under article 21 of AML/CFT Law. This includes requesting additional information from reporting entities, police authorities, judicial and supervisory authorities as well as other state institutions vested with the authority to prevent and combat related predicate crimes.

The chart below is an illustration on how UIF implement its competences; different source of information that UIF's works is based on; as well as coordination and cooperation relationship with reporting entities; law enforcement authorities; supervisory authorities; and international Financial Intelligence Units.

The UIF core function is Analysis and aims to establish partnership to enhance domestic cooperation with PPO and other law enforcement Authorities to effectively combat money laundering, terrorist financing and other crimes. This includes operational analysis on STRs received from the reporting entities, to determine and link between targets of ML/FT and predicate offenses. Also the strategic analysis to identify threat and vulnerability of ML/FT in order to support strengthen AML/CFT policies and help UIF and other state entities with the trends and patterns.

The UIF standard operating procedures (SOP) was adopted in December 2016 describes the operating process of analysis which meets the best practices. The STRs received are analysed and spontaneously disseminated following the below process.

Similarly to previous reporting period, UIF actively collaborate with PPO through the special Section for Combating Corruption and Organized Crimes and other law enforcement authorities.

During the period under review, UIF received a total of 30 requests for information and technical support from LEAs. The request mostly related to suspected money laundering activities and other categories of offences that are being initiated investigation

In comparison with the same figure of 2015, there was not much changes in total number of LEAs request for information. This is due to other LEAs have made very few parallel investigation. UIF in its regular meeting with LEAs has raised the issue of importance to undertake parallel investigation of the financial aspect of predicate offences.

Since establishment, UIF has been focused on the institutional capacity development, where during the year, UIF have tremendously improved several aspects as reveals in the following descriptions. In collaboration with BCTL, two additional staff has been successfully recruited and officially assumed the job as Analyst and Cooperation Officer respectively since July 1st 2016. To ensure staff clearly understands their duties and responsibilities, it is believed that they should be equipped with adequate training to strength capabilities. To this end, UIF organized several training and workshop involved existing and new staff in order to improve their capabilities and to be able achieving the defined goals

Under the technical assistance provided by the World Bank Group (WBG), UIF has completed a comprehensive set of standard operating procedures (SOP) for the major functions in the STR analysis area, data management, and cooperation. These SOPs in which have been formally adopted as official documents since December 2016, are aiming to provide:

- Instruction to staff members on to how carry out certain functions;
- Consistency in how activities are carried out within the UIF;
- Guidance to staff members to use templates and the associated letter templates, and detail the processes applicable when carrying out their functions;
- Guidance to assist UIF achieves, in general, better results in terms of effectiveness and efficiency.

UIF has been entrusted the role as coordinator to lead the process of other two main programs under CNCBC mandate: (i) to undertake national risk assessment (NRA) on money laundering and terrorist financing; and (ii) to develop a national plan (NSP). Both programs which implemented with technical and financial support provided by the Asian Development Bank (ADB), Timor-Leste has been finally completed and presented to Council of Ministers on 14 June 2016 and obtained political endorsement and support.

The CNCBC further meeting was taken place on 7 October 2016 where H.E. Minister of Justice officially launched NRA and NSP of Timor-Leste and made available to public access. Timor-Leste delegates for the 19th APG annual meeting in San Diego, United States, have also updated the CNCBC members with the general outcomes of the meeting.

The program has two separate committees with representatives of Ministry of Justice; Central Banks; Anti-corruption agencies; LEAs and FIUs. PACED which is co-managed by the European Commission and the Camões Institute of Portugal was designed specifically to assist the respective countries in the process of prevention and suppression of corruption; money laundering; and transnational organized crimes primarily related to drug trafficking; including capacity building training programs. UIF finds this program to be an additional advantage as it provides training opportunities also enable UIF to extend its cooperation and information exchange with other FIUs engaged in the program.

As the member of Technical Committee, UIF actively participate meetings, video conference including the first annual meeting in Lisbon, Portugal that took place on 22 - 23 June 2016.

The major challenges that UIF faced during the year were as follows:

- a) Cash-Based Economy - Most financial transactions are conducted outside the financial system because Timor-Leste's economy is predominately cash-based and this leaves no paper trail. As a result, such transactions are not captured in the AML system.
- b) Low level of STRs – Some financial institutions were not fully compliant with the obligation to file STRs. It is observed that they have lack of proper understanding of the difference between CTRs and STRs, difficulties in monitoring transactions of their customers, lack of knowledge to identify suspicious activity and lack of commitment might have contributed to this situation.
- c) None declaration of cash transportation and BNI – Since the UIF establishment none of this information has been received from the Custom Authority. This contributes to challenges that UIF facing in the implementation of analysis function.

**Money Laundering** is a process used by criminals where the origins of money or assets generated as a result of criminal activity, can be concealed, and as a result, the proceeds lose their existing criminal identity and appear to have originated from a legitimate source.

**Financing of Terrorism** is where funds or other property is made available to terrorist or terrorist organisations, directly or indirectly, with the sole intention that the funds be used to further terrorism. The funds used might from legitimate and/or illegitimate source.

**Money laundering process:**

**Placement** The launderer introduces illegal profits obtained into the financial system and economic using financial institutions (banks, money changers, casinos, etc.). This phase consisted of restructuring (place fund in several accounts or assets of same owner) and smurfing (place fund in several accounts or assets of different owners).

**Layering** the proceeds are converted or moved further from the original source by creating various layers between the sourced of fund and what is intended to achieve and making it appearing more legitimate.

**Integration** The laundered proceeds are ultimately injected into a legitimate economy through purchasing luxury assets/properties, precious metals, etc.

**Predicate Offence** Under the Penal Code of Timor-Leste, a predicate offence is the underlying crime carrying a minimum sentence of over 2 years imprisonment, which generates the money to be laundered. The predicate offence is one of the material elements of money laundering offence, for example, authorities cannot punish an individual for laundering the proceeds of a tax evasion if it is not defined as a predicate offence.
